

2023 DIRECTV Care and Distribution Center Bargaining Report #1 01/23/2023

The Bargaining team met yesterday with DIRECTV Company representatives, with each side providing opening statements. The company provided a statement on the company-union relationship and their desire to get a contract on time. The Union's opening remarks emphasized the importance of members receiving substantial improvements in wages, benefits, job security, and work-life balance.

The company began bargaining by passing a benefits proposal, which the Union advised we would discuss, review, and respond to at a later date. The Union passed a proposal to make all current and future DIRECTV employees eligible to participate in a company-funded pension plan. The company responded that they would discuss and review the proposal.

We are scheduled to meet tomorrow afternoon for further discussions. Thanks for your support...stay CWA STRONG!
