

2023 DIRECTV Care and Distribution Center Bargaining Report #3 01/27/2023

Your DirecTV bargaining committee met with the company again this afternoon. The company presented several proposals that the committee is reviewing. The committee tentatively accepted proposals from the company involving seniority and electronic membership cards and rejected a proposal concerning absence and illness. We presented proposals concerning overtime, personnel records, and improvements to funeral leave. We continue to review the company's benefits package and are working diligently on reviewing and preparing new proposals that address the needs of our members. We appreciate your trust in us to bargain for a fair contract and ask for your continued support through this process. Together, we are CWA strong!

In Unity,
